

AI Augmented System Architect

blagojsk@gmail.com linkedin.com/in/blagoj-simonovski

01 About

I'm a system architect with more than a decade of experience designing cloud-native, event-driven and AI-augmented platforms for aviation, media, logistics, education and workforce scheduling. My work spans the whole lifecycle — pre-sales consulting and rapid prototyping, architecture and infrastructure design, hands-on Java and Spring Boot development, and DevOps automation on AWS, Azure and Google Cloud. Lately that means PostgreSQL, vector databases and LLM-backed systems. Along the way I lead cross-functional teams, mentor developers and build proof-of-concepts that turn open technical questions into decisions.

02 Experience

Scalefocus

Apr 2024 – Present

Software Architect

Jun 2026 – Present

Dynamic Scheduling & Rostering Platform

Solutions Architect

- Architecture and infrastructure design
- Domain Driven Design and data architecture for shifts, availability and scheduling constraints
- Design of the rule-driven scheduling engine and roster generation flow
- Event-driven integration with workforce and time-tracking systems
- Code and development practices review
- Project and delivery management
- Discovery and business analysis

Sep 2025 – Nov 2025

Logistics Web Platform

Solutions Architect

- Architecture and infrastructure design
- Domain Driven Design and data architecture
- Order processing with Spring AI and the Gemini API
- Building Vaadin UIs
- Code and development practices review
- Project and delivery management
- Discovery and business analysis

Aug 2025 – Present

Aviation AI RAG Platform

Solutions Architect

- Architecture and infrastructure design
- Domain Driven Design and data architecture
- Integration of web services with RAG-optimised LLMs
- Integration of Quarkus with LangChain4j
- Deploying containerised Ollama models
- Code and development practices review
- Project and delivery management
- Discovery and business analysis

Jan 2025 – Oct 2025

eSchool Platform

Solutions Architect

- Architecture and infrastructure design
- Domain Driven Design and data architecture
- Code and development practices review
- Project and delivery management
- Discovery and business analysis

Apr 2024 – Aug 2025

Aviation IT System

Software Architect

- Architecture and infrastructure design
- Integration planning
- Code and development practices review
- Discovery and business analysis

Endava

Sep 2016 – Apr 2024

Software Developer → DevOps Team Lead → Senior Software Developer → Software Design Lead

Jan 2021 – Apr 2024

Media-Marketing Web Platform

Solutions Architect

- Led 8 development teams in designing and developing the application services
- Participated in an architectural board that oversaw 300 people and the entire delivery process
- High-level software and infrastructure design
- Continuous implementation of an evolving microservices architecture
- Extracting development targets from business roadmaps and feature design
- Code and practices review, planning non-functional improvements
- Developed PoCs
- Helped with major incidents and bug fixing

Oct 2022 – Sep 2023

Business-Intelligence Solution

Solutions Architect

- Design and implementation of network, infrastructure, application and data layers
- Backend development in Java and Spring Boot
- Code reviews and bug fixing

Jan 2019 – Jan 2021	Media-Marketing Web Platform Development Team Lead – Led a 10-person development team – Design and development of application components – Technical tasks involving code refactoring and improvement – Implementation of high-level design and architecture – Client demo presentations
May 2017 – Jan 2019	Media-Marketing Infrastructure Platform DevOps Team Lead – Supported every phase of the software development lifecycle and responded to incidents – Design and implementation of CI/CD pipelines and release strategies – Design and implementation of AWS-based IaaS and PaaS solutions – Database architecture design and administration
Sep 2016 – Jan 2017	Timekeeping App Software Engineer – Database design and development – Network communication planning – Feature development in Java – Code reviews and bug fixing

03 Certifications

CLOUD & DATA	AWS Certified Solutions Architect – Associate Amazon Web Services	AWS Certified Developer – Associate Amazon Web Services
	AWS Certified Cloud Practitioner Amazon Web Services	Databricks Certified Data Analyst Associate Databricks
ENGINEERING	Oracle Certified Associate, Java SE 8 Programmer Oracle	LPI Linux Essentials Linux Professional Institute
PROCESS & DELIVERY	ITIL Foundation in IT Service Management AXELOS	Professional Scrum Master I (PSM I) Scrum.org
	Professional Scrum Product Owner I (PSPO I) Scrum.org	
LANGUAGE	Cambridge English: Proficiency (CPE) Cambridge University Press & Assessment	Cambridge English: Advanced (CAE) Cambridge University Press & Assessment
	Cambridge English: First (FCE) Cambridge University Press & Assessment	

04 Education & Training

Degree	BSc in Electrical Engineering Computer System Engineering, Automation and Robotics Faculty of Electrical Engineering and Information Technologies, Skopje
2016	Mission on Mars Robot Challenge Team engineering competition — 16th place in world rankings MathWorks, Paris
2016	Eurocontrol Hackathon Communication feature for air traffic control
2016	Seavus Engineering Competition 2nd place
2015	International Training for Foreign Students St. Wilfrid's High School, Leeds, England
